Greetings,

I am writing today to let you know, as per the guidance received from the State of Wyoming, the staff and administration have decided on how the district would be making up the snow day cancellation on March 13th and 14th. The information below is what we received from the state:

“Unless extra days have been built in, days of instruction must be made up regardless of the instructional hours met or exceeded by the school. Instructional hour requirements are only meant to set parameters for the number of school days. If a school is set to meet for 175 days, it **must** meet for 175 days even if the minimum instructional hour requirement is exceeded..... As such, schools are required to make up days missed due to a temporary school closure, unless the district has built in extra days for such occurrences. We have conferred with the Attorney General's office on this matter, and this is the guidance we were given.”

The staff and administration have chosen to add the following student contact days to the calendar. We will be adding April 8th and April 22nd as student contact days. These days were on the calendar as non-student contact days: one was a vacation day and one was a professional development day for the staff.

We realize and understand you may already have plans for these days. The school will be open these days and attendance will be taken. If you have already made plans for your child to not be in school on these days please let us know in advance. The absence will be recorded, yet there will be no penalty for the absence.

The safety and education of your child is our first priority here at Guernsey-Sunrise Schools, and if you have any questions about this topic, please contact the school.

Thank you,

Glen Suppes
Principal
G-S Schools

EXCELLENCE IN EVERYTHING. EVERY STUDENT, EVERY DAY!!!
