FAX (307) 836-2450

March 17, 2020

Guernsey-Sunrise School Community:

As the Board President I wanted to take a minute and reach out to our community during these uneasy times. As I am sure you are aware, upon recommendation of the Governor and State Superintendent we have closed schools until April 6th.

As a Board we are in constant contact with the school and the District Superintendent. Any and all information concerning the school closure and COVID-19 will be sent out via our normal communication channels and will be available at guernseysunrise.org and on the District's Facebook page. We encourage you to obtain needed and current information on the COVID-19 virus via the CDC website.

As we move forward you will be updated as information becomes available. With this in mind, our response to questions should always defer to the district administration, as they are the main contact with the Governor and the Department of Education. The Administration will have the most recent information during these ever-changing conditions and will share with you as they become available.

Yours In Education,

Gary Anderson, Board President
Platte County District #2
