

EMERGENCY TREATMENT / FIRST AID

No treatment of injuries, except emergency first aid, is permitted in the schools. For purposes of this policy, first aid is the immediate help given by the best qualified person at hand or on call in case of accident or sudden illness.

The school's obligation continues after the emergency until the injured person has been placed in the care of the family, a physician or certified emergency medical.

The school district will provide and maintain first aid kits and AEDs in all schools.

The school district will provide first aid and CPR training to staff members.
